City Council Adopts Paradise Pointe Park Master Plan

At their December 19 meeting, City Council adopted the Paradise Pointe Park Master Plan.

This new 15-acre park will maintain the natural beauty of the property, offering residents a connection to nature and opportunity for recreation and relaxation. Highlights of the plan include a 14-spot parking lot, a nature playground, a picnic shelter, and scenic trails for walking and running.

Phase 1 of this park will be developed by HSR Capital, the developer for the Paradise Pointe subdivision as part of their requirement to set aside 25% of the development for parks and open space. Upon completion, the park will be dedicated to the City.

The park's official name will be chosen through a community engagement process later this year. Residents are invited to participate and help shape this exciting new addition. Phase 1 development is set to open by Fall 2025, welcoming visitors to enjoy its amenities and trails. Paradise Pointe Park reflects Ridgefield's dedication to preserving and celebrating its natural heritage, making it a lasting legacy for generations to come. Stay tuned for updates on the park's progress and make your voice heard in the naming process!

Hike into the New Year

Start 2025 on the right foot with the 52-Hike Challenge, a yearlong commitment to completing an average of one hike per week. This challenge encourages individuals to complete 52 hikes over the course of the year. This personal commitment promotes physical activity, mental health benefits, and a deeper appreciation of Ridgefield's natural beauty.

Ridgefield offers a variety of trails to suit all interests and fitness levels. Explore the shaded paths of Gee Creek Trail, the forested routes of Pioneer Canyon Trails, or the open spaces at Abrams Park. With dozens of options, you're sure to find a trail that matches your pace and interests. Visit the city's "Find a Trail" webpage for trail information to help you plan your hikes. Taking on this challenge is a great way to enjoy scenic views, stay active, and reduce stress. Start your 2025 adventure today and see how 52 hikes can make a difference in your life.

Boyse Park

Phase 1 is advancing with exciting amenities, including a pump track, gravel parking lot, and open spaces for various recreational uses. The city will soon seek a contractor to lead the design-build process, with project completion anticipated in 2025.

RORC Field House

The City will soon begin a project at Ridgefield Outdoor Recreation Complex (RORC) enclosing the batting cages, creating a year-round space for baseball and softball players and adding an Umpire's office/changing room. This project is expected to be completed by Summer 2025.
